Portfolio: [Portfolio](#) | [Sibabalwe Rayi](#)

PROFESSIONAL SUMMARY

Junior Software Developer with an ICT Diploma in Application Development (NQF Level 6) and a MICT SETA Systems Development qualification (NQF Level 5), backed by Microsoft certifications in Azure, Fabric and Power BI. Skilled in building full-stack web applications and backend logic with Python, JavaScript/React and SQL, and in deploying and managing data solutions on Microsoft Azure. Trained in the full systems development lifecycle, including analysis, design, coding, testing and debugging, with a strong grounding in object-oriented programming and database design. Proven ability to deliver working software, lead and mentor a development cohort, and learn new tools quickly. Seeking a junior developer role where I can contribute to production code within an agile team.

TECHNICAL SKILLS

Languages: C#, Python, JavaScript, TypeScript, SQL, Java

.NET: .NET, ASP.NET Core, Entity Framework Core, Web API

Frontend: React, HTML5, CSS3, JavaScript/TypeScript

Backend & APIs: REST APIs, RESTful Web Services, API Integration

Databases: SQL Server, Azure SQL Database, Database Design

Cloud: Microsoft Azure, Azure SQL, Azure Synapse Analytics, Azure Data Lake Gen2

Development Practices: OOP, SDLC, Agile/Scrum, Git/GitHub, Debugging, Testing

PROFESSIONAL EXPERIENCE
